

TIME FOR YOU

IT'S TIME FOR **YOU**

The time you spend in your bathroom should be about a moment of peace. This is our philosophy at Copenhagen Bath and the reason we offer not only great functionality, but also a mentally quiet and characteristically simple Scandinavian design.

Our unique patented Acovi® solid surface is a massive yet adaptable material that can be cast, shaped and even cut very thinly. This gives us amazing possibilities when creating beautiful bathroom furniture. It is pore-free and can withstand the test of time and splashing water. This makes it perfect for a wide range of products like wash basins, bathtubs, cabinets and shelves that Copenhagen Bath offers.

We even produce our designs in custom measurements to create your dream bathroom.

You now hold our new catalogue in your hands, so put your feet up, spend some time on yourself and get inspired and seduced by our many beautiful designs and collections.
